

Education

University of Illinois at Urbana-Champaign

Urbana, IL

Ph.D, Theoretical Condensed Matter Physics, *Dec. 2009*

GPA: 3.85/4.0

- Thesis topic: Thermodynamic Properties and Narrow Feshbach Resonance of the Ultra-cold Fermionic Atoms;
- Developed theoretical model for 3-hyperfine-species cold Fermion gas by extending Leggett's BCS-BEC crossover model;
- Analyzed the model with numeric methods (finite difference, Monte Carlo).

M.S., Finance, May 2006

GPA: 3.85/4.0

M.S., Physics, Dec. 2002

GPA: 3.97/4.0

University of Science and Technology of China

Hefei, Anhui, China

B.S., Physics, May 2001

GPA: 3.8/4.0

Skills

Mathematics: modern probability theory, statistics, stochastic calculus, partial differential equation, Monte Carlo simulation, finite difference;

Computer Languages: C/C++, Java, Perl, SQL, HTML, ASP, R, Pascal, Fortran, VBA, Basic;

Jave Techniques: J2EE, JSP, Struts, Spring, Ajax;

Software Applications: Excel, Access, Matlab, Mathematica, \LaTeX ;

Languages: fluent in English and Chinese.

Sample Projects

- Digital information risk analysis system (using J2EE/Struts/Spring/Ajax 10K+ lines);
 - Mini C++ library (2000+ lines) for pricing vanilla and exotic equality options with binomial tree, Monte Carlo, finite difference methods;
 - Aggregating academic papers from different internet-based databases and providing uniform web-based searching service (using Java/JSP/Perl);
 - Multi-factor long-short risk-neutral stock selection model (using R);
 - Term structure building and interest swap pricing (using Excel);
 - Numerically solution of the BCS-BEC crossover gap equation (using Mathematica).
-

Experience

University of Illinois at Urbana-Champaign

Urbana, IL

Research Programmer

June 2008 - Present

- Developed web application (<http://sulfite.lis.uiuc.edu:8080/InformProject>) for aggregating and evaluating risks of digital format for achieving (50% of the coding work) ;
- Designed data access modular, business logic, administrative modular and miscellenous parts;
- Implemented *Inform* methodology for aggregating and processing experts risk assessment;
- Leveraged various J2EE techniques, struts, spring, ajax, core design patterns, etc.

Teaching Assistant

Aug. 2001 - June 2008

- Lead discussion/lab sections of physics 101/211 in several semesters;
- Was honored in *Daily Illini*'s list of “**Teachers Ranked as Excellent by their Students**” for spring 2005 (Physics 101), Spring 2007 (Physics 211).

Illinois Business Consulting

Chicago, IL

Consultant

Jan. 2006

- Worked in a two-person team at **Towers Perrin**;
- Developed and analyze tentative cognitive/functional test battery of elderly people for life insurance underwriting.

Capital Hunter

San Diego, CA

Financial Analyst & Technology Specialist

June 2005 - Aug. 2005

- Analyzed everyday financial data about venture capital and private equity financing;
- Compiled regional quarterly reports on venture capital and private equity financing.
